

CANCER Cannot be Cut Out or Removed with Plasters

Surgical operations and flesh destroying plasters are useless, painful and dangerous, and besides, never cure Cancer. No matter how often a cancerous sore is removed, another comes at or near the same point, and always in a worse form. Does not this prove conclusively that Cancer is a blood disease, and that it is folly to attempt to cure this deep-seated, dangerous blood trouble by cutting or burning out the sore, which, after all, is only an outward sign of the disease—a place of exit for the poison?

Cancer runs in families through many generations, and those whose ancestors have been afflicted with it are liable at any time to be stricken with the deadly malady.

Only Blood Diseases can be Transmitted from One Generation to Another

—further proof that Cancer is a disease of the blood.

To cure a blood disease like this you must cure the entire blood system—remove every trace of the poison. Nothing cures Cancer effectually and permanently but S. S. S.

S. S. S. enters the circulation, searches out and removes all taint, and stops the formation of cancerous cells. No mere tonic or ordinary blood medicine can do this. S. S. S. at the same time purifies the blood and builds up the general health.

A little pimple, a harmless looking wart or mole, a lump in the breast, a cut or bruise that refuses to heal under ordinary treatment, should all be looked upon with suspicion, as this is often the beginning of a bad form of cancer.

Mrs. Sarah M. Keeling, of W. J. Lee Ave., Bristol, Tenn., writes: "I am 41 years old, and for three years have suffered with a severe form of Cancer on my jaw, which the doctors in this city said was incurable, and that I could not live more than six months. I accepted their statement as fact, and had given up all hope of ever being well again, when my drug bottle, containing S. S. S., came to my attention. After taking a few bottles the sore began to heal, much to the surprise of the physicians, and in a short time made a complete cure. I have gained in flesh, my appetite is splendid, sleep is refreshing—in fact, am enjoying perfect health."

Our medical department is in charge of physicians of long experience, who are especially skilled in treating Cancer and other blood diseases. Write for any advice or information wanted, we make no charge whatever for this service.

THE SWIFT SPECIFIC COMPANY, ATLANTA, GA.

J. C. Siler & Co., shipped twelve horses to Memphis, Tenn., Tuesday, to be sold there.

American mutton will not compete with English successfully unless we use roots. Pure water and salt in which is mixed one-fifth bulk of wood ashes should be constantly before the lambs. The large, juicy mutton lamb free from lubb, is in demand for export trade at long prices, and wool is booming.—Ohio Farmer.

J. C. Siler attended Richmond court and reports heifers at 4 to 4 1/2, cows 3 to 4 1/2, steers from 3 to 4 1/2.

At the dispersion sale of the Fairview herd at Chicago, 112 Hereford cattle averaged \$68.41. Dale, the champion bull, brought \$7,500, the biggest price ever paid for a Hereford bull in the United States, at either private or public sale. Dale was bred and raised by Mr. Graves, who sold him in his sale at Kansas City two years ago for \$1,000 to Mr. Nave. Theresa, \$2,800, calving in '98, brought \$3,900 and Lady Help, imported, \$2,700.

When the liver fails to secrete bile, the blood becomes loaded with bilious properties, the digestion becomes impaired and the bowels constipated. HERBINE has a direct action on the liver and excretory organs, and a few doses will cure any case of biliousness. Price, 50 cents. C. C. & J. E. Stormes.

Birds do an immense amount of drudgery for man, if they do now and then reward themselves by a dainty tidbit of ripening fruit. A pair of robins have been watched while they carried a thousand earthworms to their brood. Woodpeckers destroy eggs and larvae which would develop millions of destructive creatures in forests and orchards; and one of the most inevitable foes of the canker worm is the beautiful oriole, were it but allowed to live and hang its swinging cradle to the elm. For every wing of black and orange on a young girl's hat an apple tree is stripped of leaves and young fruit, or an elm is denuded of its graceful foliage by the canker worm.—Farm Journal.

Science has found that rheumatism is caused by uric acid in the blood. This poison should be excreted by the kidneys. Foley's Kidney Cure makes them well. C. C. & J. E. Stormes.

Have you learned to value the full worth of toads in your warfare against insects? In many rural communities the Frenchmen put up boards with this inscription: "Toads help agriculture; destroy 20 to 30 insects each hourly. Don't kill toads!" and this of birds: "Each department of France loses yearly millions of francs by the injury done by insects. Don't kill the birds."—Vick's Magazine.

Children who are weak, fretful or troublesome should be given a few doses of WHITE'S CREAM VERMIFUGE. They will then become strong, healthy and active, rosy cheeks, bright eyes, will be happy and laughing all the day long. Price, 25 cents. C. C. & J. E. Stormes.

A single acre of Washington timber recently measured by the Davison of Forestry, contained 218,690 feet of red fir, 11,000 feet of hemlock, and 6,000 feet of cedar; making a total stand of 235,690 feet. The smallest fir on the acre was 3 feet in diameter and the largest, 8 feet. The height of the forest approximated 300 feet. The hemlock was scaled down to 30 inches in diameter and had it been scaled to 12 or 14 inches, as customary in the East, the stand would have been several thousand feet greater. This acre was about 30 miles from Tacoma.

Rheumatism is conceded to have its origin in a poisoned condition of the blood, and to be most successfully treated by HERBINE, which acts upon the liver, kidneys and other blood purifying organs, thereby digesting the system of the offending agents. Price, 50 cents. C. C. & J. E. Stormes.

The farmers organization in the Northwest call for an international agricultural conference in July, the chief purpose of which is to persuade the farmers of the world to reduce their wheat output by 20 per cent. and not to sell a bushel for less than a dollar. We doubt very much if anything can be accomplished in this way for the benefit of the farmers, and it is not the right plan at any rate. It is

in the nature of a great trust, the thing the farmers condemn is manufacturers and others. The wheat trust would be the biggest in the world, if it could be formed. Ex.

The boys are talking of giving horses a rest until after the G. A. R., but a good one comes in every now and then.

Cyclists should always carry a bottle of BALLARD'S SNOW LINIMENT in case of accident, if applied immediately, it will subdue the pain, prevent swelling and discoloration, and quickly heal the wounds. Price 25 and 50 cents. C. C. & J. E. Stormes.

J. C. Siler & Co., bought at Richmond Monday four horses at from \$50 to \$65. They bought three at Harrodsburg at from \$35 to \$115.

One of the most detrimental conditions to which our pastures are most frequently subjected, is close grazing. Our system of close grazing, followed by periods of prolonged drouth, inevitably leads to a weakening vitality of the grass plant, resulting in a deficient stand and reduced productive-ness. A practical and successful stockman once remarked that the "way to get grass is to let it grow." This simple statement very nearly embodies the secret of successful pasturing in the blue grass region. Failure to preserve this principle means a yearly loss of thousands of dollars by reason of deteriorated stock and impaired productive capacity of the pastured lands.

A Follower of Measles.—In many instances a persistent cough follows an attack of measles. In speaking of this Mr. Walter B. Beel, editor of the Elkin (N. C.) Times, says: "Three weeks ago I had an attack of measles which left me with a bad cough. I took several doses of Chamberlain's Cough Remedy and the cough has entirely disappeared. I consider Chamberlain's medicines the best on the market." For sale by R. E. McRoberts, druggist.

J. C. Siler sold to B. F. Robinson a lot of 100 lb shoats at 4 cts. He also sold to Rice Beuge a nice springer cow at \$22.50.

By shearing early you have many decided advantages: the first of which is that you can do this before the "rush" of other farm operations coming later on. If your sheep are "tickly" you will remove most of them in shearing, and thus save boarding them longer (which is no small item), and your sheep will be much heavier in the fall than if not shorn till June, and they will have much more wool on them to protect them from inclement weather at the beginning of another winter. Financially you will have nearly or quite as much money, by not washing, when all the items connected therewith are considered.—Exchange.

"DeWitt's Little Early Risers are the finest pills I ever used."—D. J. Moore, Millbrook, Ala. They quickly cure all liver and bowel trouble. F. P. Frisbie, Pharmacy.

An effect is again being made to start in Louisville a stock yard company in competition with the Bourbon Yards. The Bourbon has had a monopoly of the business for so long that people have almost ceased to hope for relief. The several efforts which have been heretofore made in this direction have not resulted in any benefit to shippers of live stock. All proposed competition is either bought out or "frozen" out by the Bourbon. When a competing yard is proposed the only question which the Bourbon people seem to consider is: "Which is the cheapest—to buy them out, or freeze them out?"—Farmers Home Journal.

Mules are steadily advancing in price when they are offered for sale, if the owners do not obtain their asking prices they hold them, which is a sign there is faith for better future sales. Choice and fat mules, from four to seven years old, of extra good and heavy are quoted at the following prices: 14 to 15 hands high, \$50 to \$80; 15 to 16 hands high, \$80 to \$100; 16 to 18 hands high, \$100 to \$120; 18 hands high, \$120 to \$150; extra heavy weight good ones \$120 to \$150.—Farmers Home Journal.

An Epidemic of Whooping Cough.

Last winter during an epidemic of whooping cough my children contracted the disease, having severe coughing spells. We had used Chamberlain's Cough Remedy very successfully for croup and naturally turned to it at that time and found it relieved the cough and effected a complete cure.—John E. Clifford, Proprietor Norwood House, Norwood, N. Y. This remedy is for sale by R. E. McRoberts, druggist.

The horse market is humming. Prices have touched the highest notch of the season. All classes of buyers were hungry last week for the best grade of horses of all kinds, and the liveliest sort of market was experienced. A draft gelding weighing a little over a ton sold to a London dealer at \$25 and a lot of them went at from \$250 to \$320 one consignment of fifteen head averaging \$246. Thirteen coach horses made an average of \$302 and some real choice ones of this class brought around \$500. Such figures as these will send farmers hunting for the best stallions. The men who stand the stallions need not cut one another's throats in order to get business.—Breeder's Gazette.

PETERSBURG, Ill., Oct. 13th. 1899. Pepsin Syrup Co., Monticello, Ill. Gentlemen:—Our baby Esther has never tasted a drop of medicine other than Dr. Caldwell's Syrup Pepsin for more than a year. It entirely cured her of constipation. She is a lovely child and since I gave her your medicine she has been perfectly healthy, although she had not been well and strong until we began using it. We know of others who are using it with equally good results. Wishing you success, Gratefully yours,

Mrs. C. A. THUEMMLER. Sold at McRoberts' Drug Store.

The Hessian fly problem has been solved, according to newspaper reports. A farmer in the central part of the State thinks he has discovered how to keep the fly out of his wheat at a moderate expense. Just as his wheat was coming up last fall, he scattered common salt over half a field, leaving the other half without any. He used about a bushel of salt to the acre. The part of the field salted has a good stand of wheat, entirely free from fly, while the other half is badly damaged. Another man says he has prevented damage from fly by sowing a barrel of air slacked lime on fifteen acres as soon as the wheat came up, repeating the process at intervals of a few days.

Are you interested in the Light Harness Horse? If so, you want the Kentucky Stock Farm. It is the leading authority on all matters pertaining to the breeding, raising and training of the trotter and pacer. It is published at Lexington, the Hub of the Horse Universe. For ninety days we are enabled to offer the Kentucky Stock Farm and THE CENTRAL RECORD for \$2.00. Send your subscriptions at once to Louis Landrum, Lancaster, Ky.

KENTUCKY CROP REPORT.

Condition of Crop and Live Stock May 1st, 1900.

WHEAT

The condition of wheat in the principal winter wheat producing States may be summed up as follows: In Ohio, Michigan and Indiana the crop is practically a failure. Many of the counties of those States will fail to produce as many bushels as were sown last fall. Winter wheat in Wisconsin is in much the same condition as in the three States named. In Illinois the prospect is for less than an average crop. Missouri has a fine prospect for crop, as have the States of Kansas and Iowa.

WHEAT IN KENTUCKY.

The average condition of the wheat crop of the State, May 1st, compared with normal years, is 100, which is 4 points above the April average and 12 points above the average for the past four years. The three sections of the State separately show the average condition as follows: Western, 101; central, 97; southeastern, 102. It must not be supposed from the foregoing that the crop, generally speaking, presents a less favorable prospect in the central than in the other sections. The lower average is due to the poor prospect in the counties of Boone, Gallatin and Kenton, of which mention was made in the April report. Little improvement has occurred in these counties as a whole, though there are some fine fields to be seen. In Campbell County though, where the condition was 67 on April 1st, the crop has improved until the condition is now normal. A large number of correspondents report the crop the finest ever known at this season. The

That Throbbing Headache.

Would quickly leave you if you used Dr. King's New Life Pills. Thousands of sufferers have proved their matchless merit for Sick and Nervous Headaches. They make pure blood and strong nerves and build up your health. Easy to take. Try them. Only 25 cents. Money back if not cured. Sold by R. E. McRoberts, Druggist.

growth is so rank that there is some apprehension that the crop will lodge before it can be harvested. In some fields it is thin on ground, but as a rule it has "tilled" well during the month and the stand is good. Answer to question, "what per cent. of average will be blown up?" show that there will be practically no loss of acreage in this way.

OATS.

The acreage of oats shows an increase for this year, being 101 as compared with acreage of 1899. The condition is 92 as compared with average years. The seed germinated well but the weather has been too cool and dry for best results, the cool nights and lack of moisture at the close of the month being especially unfavorable.

CORN.

The favorable weather for carrying forward farm work was fully utilized in preparing for and planting corn, so that instead of the crop being late, as was forecasted last month, it is fully up to the average in date of planting, and in many counties is far in advance of the usual planting season. The excellent condition of the soil is also a matter generally noted by correspondents. The crop, therefore, has this prime essential to a good production to start with. Some early corn is up with a good stand, but serious injury is threatened by cut worms, which are present in great numbers. The per cent. of crop of 1899 still in farmers' hands is very small, 15 per cent, as against 20 per cent. on May 1st, 1899.

Tobacco plants are generally reported plentiful but deficient in size, which will probably delay setting somewhat. Some injury from cut worms is reported, but not enough to affect the large acreage contemplated. The condition of plant beds, compared with average years, is 93.

CLOVER AND PASTURES.

Clover was badly winter killed, and in many counties the loss is well nigh total. This is remedied to some extent by very favorable reports from other counties. The condition is 82 as compared with average years.

Unable to Work.

Chas. Repligle, of Atwater, O., was unable to work on account of kidney trouble. After using Foley's Kidney Cure four days he was entirely well. C. C. & J. E. Stormes.

compared with the normal for this date. Pastures are backward and other grass besides clover have suffered from effects of winter. The condition of pastures is 82 as compared with average years.

LIVE STOCK.

Live stock is thin in flesh as a result of the scant supply of feed and roughage. All classes, however, are generally healthy, if we except distemper among young horses and mules. Stock hogs are scarce. Spring lambs are in fair condition. The general average condition as compared with the normal of this date is 87.

FRUIT PROSPECTS.

Fruit prospects have improved during the last month, and we are now assured of a liberal supply of all classes of fruits grown in the State, providing no harm comes in the way of late frosts. Some complaint is made of scant apple bloom, and it is generally conceded that the condition of the peach trees, resulting from the severe winter of 1898-9, will prevent a large crop of this fruit. The prospect as compared with this date of average years, is for Apples, 94; Peaches, 79; Pears, 81; Cherries, 92; Grapes, 92; Strawberries, 95. On this date of 1899 the prospect was, for Apples, 91; Peaches, 92; Pears, 89; Cherries, 68; Grapes, 71; Strawberries, 85.

Robbed the Grave.

A startling incident, of which Mr. John Oliver, of Philadelphia, was the subject, is narrated by him as follows: "I was in a most dreadful condition. My skin was almost yellow, eyes sunken, tongue coated, pain continually in back and sides, no appetite—gradually growing weaker day by day. Three physicians had given me up. Fortunately, a friend advised trying 'Electric Bitters' and to my great joy and surprise, the first bottle made a decided improvement. I continued their use for three weeks, and am now a well man. I know they saved my life and robbed the grave of another victim." No one should fail to try them. Only 50 cts. guaranteed, at McRoberts' Drug Store.

FOREST'S CAVALRY.

Reunion at Erie's Cross Roads June 10—New Organization.

The following order has been issued by Maj. Gen. P. C. Kelly: "Headquarters Forest's Cavalry Corps, Murfreesboro, April 25.—General Order No. 3. The organization of Forest's Cavalry into a corps of two divisions of two brigades each—the officers commanding same and the veterans assigned to each brigade is hereby announced. Maj. Gen. D. C. Kelley, Commanding Corps. First Division—Maj. Gen. W. H. Jackson commanding. First Brigade, Brig. Gen. Baxter Smith, composed of Middle Tennessee and Alabama veterans; Second Brigade, Brig. Gen. G. B. Holt, composed of Kentucky and all West Tennessee veterans, except B. B. Holt's old brigade. Second Division—Maj. Gen. Tyne H. Bell commanding. First Brigade, Brig. Gen. Robert McCulloch, composed of old Tennessee brigade and all other veterans not otherwise assigned; Second Brigade, Brig. Gen. J. C. Hanton, composed of all Mississippi veterans. By order of Maj. Gen. Kelley Chas. W. Anderson, A. G. Mention of all veterans who at any time served with Gen. N. B. Forrest on battlefield of Brice's Cross Roads, is hereby announced. STAFF OFFICERS. Maj. Charles W. Anderson, A. G. Dr. James B. Cowan, Chief Surgeon. Capt. John W. Worley, Chief Artillery. Capt. George Deshler, Paymaster. Capt. C. W. H. Forrester, Aid-de-Camp. The above officers are the survivors of Gen. Forrest's staff. To fill vacancies the following appointments are announced: George S. Cowan, Colonel and Chief Quartermaster, Franklin. Maj. James B. Cowan, Colonel and Aide-de-Camp, Nashville. J. C. Goetz, Colonel and Chief Commissary, Jackson. D. C. Jones, Colonel and Chief of Ordnance, Memphis. A. W. Collier, Colonel and Inspector General, Memphis. E. S. Walton, Colonel and Chief of Engineers, Sardis, Miss. R. H. McShon, Chaplain, Memphis. John Overton, Colonel and Aide-de-Camp, Memphis. H. J. Livingston, Colonel and Aide-de-Camp, Brownsville.

Dr. Bell's Pine-Tar-Honey

TO THE WEAK AND WEARY COUGH-WORN LUNGS.

Nature's Remedy improved by science to a harmless, pleasant, positive cure. COUGH, LUNG AND BRONCHIAL AFFECTIONS never linger in contact with that most natural and speedy cure.

Dr. Bell's Pine-Tar-Honey

advances a New Theory in the Treatment of Coughs. It cures the Cough by curing the Cause. This remedy cuts the mucus and destroys the germs of disease and soothes, so that there is no inclination to cough. Coughs, Colds, Croup, Whooping Cough and Lung Soreness disappear by its use as snow before the sunshine of spring.

TRY A 25c BOTTLE ON A GUARANTEE.

ALL DRUGGISTS ARE HEREBY AUTHORIZED to refund the price if it fails to give entire satisfaction in any and all cases, child or adult.

BRONCHITIS CURED.

Dr. Bell's Pine-Tar-Honey is the best cough remedy we have ever used. My wife had a severe case of bronchitis and throat trouble, and I bought a bottle of Dr. Bell's Pine-Tar-Honey, and after using it one day and night I can say that it is the best remedy that I ever used. Without Dr. Bell's Pine-Tar-Honey in our house.—T. A. Wilburn, Taylorville, Ky.

CONSUMPTION CURED.

I have sold Pine-Tar-Honey for one year. Find it a splendid remedy and good seller. Sold five bottles to Miss Stella Howell, of this place, who was considered to have consumption. She is now in good health.—J. T. Graham, Druggist, Grantsburg, Ill.

PNEUMONIA PREVENTED.

I had a very severe cold and sore throat. I thought I was taking pneumonia. I got a 50-cent bottle of Dr. Bell's Pine-Tar-Honey, and after using it one day and night I can say that it is the best remedy that I ever used. I recommend it highly to everybody.—Lewis O. Davis, J. A. Asheville, Mo.

Lookout for Substitutes: Demand BELL'S PINE-TAR-HONEY

And do not let any druggist offer you one of those cheap syndicate cough mixtures on which he makes a big profit.

DR. BELL'S PINE-TAR-HONEY is sold by all good druggists.
